

Integration of Academics and Career and Technical Education Questionnaire

Directions: Read each statement. Based on the knowledge and skills *you have now*, circle the number that most nearly represents the degree to which you agree or disagree with the statement. There are no right or wrong answers. Your responses will be confidential, and the data will be reported as group data rather than as individual responses.

	Strongly Agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
	5	4	3	2	1
1. With other teachers on a team, I can develop a plan to use standards-driven integration of academics and career and technical education (CTE) for our career pathways program, career academy, or small learning community.					
2. I can work with other teachers on a team to develop and implement integrated instructional plans that are linked by cross-curricular standards.					
3. I can work with another teacher or teachers to develop and implement integrated learning experiences for students in which both the instruction and the assessment are coordinated.					
4. I can use my state standards, both academic and CTE, to develop rigorous and relevant lessons for my students.					
5. I can demonstrate my understanding of the resources available to me and team members by including these resources in the plan for our career pathways program, career academy, or small learning community.					
6. I can develop and implement a learning experience for students based on real-world applications.					
7. I can work with another teacher or teachers to develop and implement an integrated project resulting in a useful product (e.g., a newsletter, play, or recommendations for solving a community problem).					
8. I can work with another teacher or teachers to develop and utilize rubrics for assessing student performance on an integrated project.					

	Strongly Agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
	5	4	3	2	1
9. I can work with other teachers to develop and implement an integrated work-based learning component (e.g., paid internship, mentorship, on-the-job training, apprenticeship).					
10. I can use the resources available to me on my state education website to determine cross-curricular standards for developing integrated learning experiences for students.
